- Safe Space
- Classes

CHAI RIVERS

We want to create a safe and friendly environment where all people needing recovery from any and all kinds of things can come and connect, feel accepted loved and inspired with hope.

We want to accept people where they are on their journey of recovery and help empower them to learn coping skills for challenges, while coming along side and encouraging their growth by allowing them to make their own goals and celebrating all their successes along the way.

ABOUT

We believe

Everyone has value

Everyone needs connection

There is hope for everyone

There is healing for everyone

Everyone has opportunity to grow

Everyone is in recovery from something

Everyone deserves a chance

Change is possible

Recovery is possible for everyone
